## ***Flexible Spending Account*** (FSA)

- **Only individuals eligible for employer-provided major medical coverage can be offered the health FSA (Unreimbursed Medical).**

This account allows you to pay for out-of-pocket medical, dental, hearing and vision expenses with pre-tax dollars. Examples of these expenses may be, but are not limited to insurance deductibles, medical exams, hearing, dental expenses, vision expenses, orthodontia and Prescription Drugs. All health care expenses must be for the diagnosis, cure, mitigation, treatment or prevention of disease or for the purpose of affecting any structure or function of the body to be a qualified health care expense under the plan.

## ***Dependent Day Care Spending Account***

This account allows you to pay for day care expenses on a pre-tax basis throughout the plan year. Only those dependent care expenses which allow you (and your spouse if you are married) to be gainfully employed are eligible. This excludes care which is primarily for medical or educational purposes.

**Eligible Dependents** - Dependent children under age 13, or any other dependent who is incapable of caring for himself or herself, whose principal residence is your home and you can claim as a dependent on your federal tax return.

**Eligible Expense** - Reimbursement is limited to the income of the lower earning spouse and also \$5,000/year; \$2,500 if married, filing a separate return. Married employees in separate plans can only be reimbursed in total \$5,000. The reimbursement amount may not exceed the employee's salary; or for married employees, the lesser of the spouse's salaries (subject to certain exceptions). If your spouse is a full time student or incapable of caring for himself or herself, the maximum is \$200 per month for one child or \$400 per month for two or more children.

### **Eligible Providers -**

- A licensed day care center which cares for six or more persons
- A unlicensed provider caring for less than six persons
- An in-home provider, as long as that provider is not your child under age 19 or someone you or your spouse can claim as a dependent for tax purposes.

For more information, see IRS publication 503, available from your local IRS office.

## ***Personally Owned Insurance Spending Account***

### **Cafeteria plans cannot reimburse individually-owned medical insurance policies**

This account allows you to pay for personally owned insurance premiums (non-medical) on a pre-tax basis. Some examples of these expenses may be any personally owned supplemental or disability insurance. This does **not** include the amount that your spouse pays their employer for group coverage under their plan. Life insurance is **not** an eligible expense in this account. IRS regulations now require this coverage to be maintained or owned by the employee – not a spouse or dependent.

## ***Group Insurance Premiums***

This account allows you to pre-tax your group-sponsored insurance plans. Group term life up to a maximum of \$50,000 may be deducted pretax. Please note that most health insurance plans provide life insurance as well. This needs to be noted in your calculations. (i.e. medical life insurance \$10,000 therefore \$40,000 term life may be deducted). Dependent life insurance is not eligible for pretax deductions.

All claims will be paid from actual bills, or copies of actual bills. For Unreimbursed Healthcare Spending Account claims you may also submit a copy of your EOB form from your insurance carrier. These must contain the name of the provider of service, date(s) that the services were provided and the amount charged. They must be attached to a completed First Concord Benefits Group "Claim for Reimbursement" form.
